

Active Communities Grants

About the Grants:

Active people contribute to a healthy and vibrant community, and a thriving community supports more people to be active. We want to hear about how we can create the right conditions for people to 'get out and about more' and be active where they live, reducing inequalities in our communities. By doing so, the grants aim to support communities to:

- Support one or more of the target audiences to get out and about more
 - Inactive people
 - People on low incomes
 - Families with children
- Help to create or inspire sustainable, long-lasting changes in a community
- Involve local people in developing ideas which strengthen community asset of people, skills, places and groups
- Deliver value for money and quality outcomes for the community, while making good use of resources in the community
- Provide opportunities for creativity and for communities to try new things
